

Dear Parents and Carers,

Week beginning Monday 9 August, 2021. Learning from home Level 4.

Our zoom 3-6 have started and it was lovely to see the excitement on our students' faces as they connected with their class peers. Essential workers students also connected into their class zooms. Now we have jumped that hurdle 3-6 students are now engaging in regular zoom meetings. This week our K-2 students take the plunge into a virtual world. I hope parents received their child's log in packs for zooming. If you have not please ring the office on 95805519 as we have our master copy of all student's log in in the office.

The teachers have been grateful that they have had the opportunity to ring students and parents to also check in on their students wellbeing. Our students are starting to get into a routine of Learning From Home and engaging in producing quality work. Teachers are online providing feedback to ensure your child knows we are working together.

4CTV is back and we have a new host for this LFH period. Please view this on our website and see if you can complete the challenge.

It's all about empathy don't miss out.

Helping to keep our community safe. These regulations have not changed.

I want to remind all our families that there is minimal supervision on site at our school for those students who cannot be educated at home, for example if their parent or carer is an essential worker. All students and families will be supported with [learning from home](#) materials and resources. Schools priority for staff on site are now restricted to staff who live in the GR LGA if possible.

If you are working from home, and your child is able to be educated from home, please keep them at home.

I want to thank all the families who have continued to support our community by keeping their children at home to minimise movement in the community. Get in touch with your teacher to discuss any additional needs for your child or family to support you to continue learning from home.

Engaging in learning is essential for student attendance.

As we continue into LFH for the next month the teachers are now marking students attendance against the priority tasks that are handed in on a daily basis. Just answering the morning questions is not enough as we continue LFH. We need to ensure our students are engaged in their learning. Many teachers are also ringing parents to check in if LFH work is not being completed or we have not heard from you or your child over a few days.

Thank you for your ongoing support.

Updated information will continue through website and school stream posts especially alerts and newsletter for whole school communication. Class teachers will continue to communicate via Class Dojo and google classroom and zoom.

Regards

Debbie Hunter

Principal
