

Week 8 beginning 14 March 2022

PARTNERSHIPS in LEARNING

Each class teacher prepared an iMovie of their classrooms and the expectations of learning programs for this year and how we engage your child in learning activities. This was posted on Class Dojo last Friday. I hope parents and carers enjoyed the opportunity to meet teachers and see the class in action. This is to replace the Meet The Teacher event as it allows similar information to be disseminated and can be viewed at an appropriate time that suits parents and carers

BEST EMAIL sent Friday 4 March @ 4pm

Please read this email and start your preparations for downloading SENTRAL APP on iPhone or in browser. Remember this is just getting ready as we still have to provide you with a secure access key to get access to our school.

If there are family circumstances that require another access key we will need to be informed through the office, attention to Jacquie Borg, so we can add your extra email address.

SCHOOL HOUSE CAPTAINS

Last Friday all K-6 students got to vote for their house captains and vice captains and be involved in house chants. Welcome Kindergarten to your new house groups.

SCRIPTURE and ETHICS CLASSES

The school is planning towards these programs starting up 23 March 2022. Your choice of classes is determined through your enrolment forms.

PERMISSION TO PUBLISH

Please watch out for this form on School Stream. We have updated this permission to be more inclusive of the third party access and more specific of media publications aligning to DET.

GENERAL PERMISSION

This form will also come out on School Stream and requests general permissions from parents and carers for PG videos to be shown, short walks to local training and sports grounds.

CHILD PROTECTION PERMISSION

As each grade delivers their specific child protection programs the teachers will send out information to parents and carers which will have information about the child protection theme and content.

As our school community has now fully opened up and unfortunately more COVID exposure to different cohorts, I appreciate parents contacting the school to advise us and also sending through student absences. We have been able to cover classes as teachers are affected and

have been extremely grateful for the dryer weather recently to give our school a chance to get out students out to play and dry the school grounds.

Regards
Debbie Hunter
Principal
